The Farm For The Farm Boy?

Every once in a while some pulsing new philosophy comes along with a few suggestions that have results that echo with which agriculture is supposed to be affected, and frequently comes with a penetration something like this:

"One of which might be all right if the itinerant sojourn were fully acquainted with the conditions of the country which he surveys from the window, the conditions of the industry about which he descants so easily and freely, and the trend of the times in which he makes his statements."

Now this question of "keeping the boy on the farm" is not a new one, and it has a good many angles to it, some of which are well worthy of little reflection by the individual before he decides whether the boy should be kept on the farm, and if so, how to go about it.

The first question that naturally arises is: "Should the boy be kept on the farm?"

This query opens a great realm of speculative thought and examination long before the sequent answer: "How is it to be done?" can be satisfied.

It can be said at the outset, without fear of contradiction, that not all boys are fitted for life on the farm, physically or temperamentally, especially the fact that the farm affords an outlet for the expenditure of a wide range of talents. To try and push such youths down to a life with the soil is akin to shooting a dog with a shotgun.

Now this question of "keeping the boy on the farm" is not a new one, and it has a good many angles to it, some of which are well worthy of little reflection by the individual before he decides whether the boy should be kept on the farm, and if so, how to go about it.

The first question that naturally arises is: "Should the boy be kept on the farm?"

This query opens a great realm of speculative thought and examination long before the sequent answer: "How is it to be done?" can be satisfied.

It can be said at the outset, without fear of contradiction, that not all boys are fitted for life on the farm, physically or temperamentally, especially the fact that the farm affords an outlet for the expenditure of a wide range of talents. To try and push such youths down to a life with the soil is akin to shooting a dog with a shotgun.

Now this question of "keeping the boy on the farm" is not a new one, and it has a good many angles to it, some of which are well worthy of little reflection by the individual before he decides whether the boy should be kept on the farm, and if so, how to go about it.

What about agriculture itself? Does agriculture need, and can it offer suitable rewards and satisfaction, to all the boys who are born on the farms of Western Canada?

Agriculture, which has an important bearing on the problem of taking care of the future of the rural youth. Fifty years ago a single farmer could only raise enough produce to feed a handful of people. Today, with the use of highly mechanized and highly powered implements, one farmer can feed a host, and the trend in the direction of increasing the productive power of the individual in the realm of agriculture is neither recent nor a hasty one.

If success, combined with improved business management, is going to continue to widen the scope of the individual engaged in agricultural production, the time may come when a very considerable proportion of the land reared on the land will have to look elsewhere for a vocation.

Then, what about today? The boy's desire for the fitness or education of the rural boy for bridging forth to others of his birth, who assume a greater importance. As has happened in other industries in the flux of time and change, these best adapted by nature and preparation to agriculture will be those who will stay with the industry and they only. The others will drift away.

If the foregoing diagnosis of the situation is correct, it is very fortunate that the Western Canadian provinces have available an infinite variety of resources awaiting the application of the initiative to encourage him in our youths, for their recovery and conversion to the services of manhood.

It also is fortunate that coincident with this tendency to reduce the man power on the farm, a marked development is taking place in industrial life in the west, which, along with the development of the resources already referred to, will afford an ever widening outlet for the energies of young manhood.

Progress has always been marked by evolutionary changes of this kind, though it may be difficult to some that this is inevitable. It is useless to try to stem the forward march. The wise attitude is to try to profit by what presents trends may bring in the future and take advantage of the opportunities that may arise.

These are questions which, no doubt, are receiving serious consideration by those responsible for the conduct of education in rural districts. The wise education is not content with taking things as they are for granted, but is always looking to the future and making adjustments which the necessity of明天。

New Motor Disease
"Driver's heat" is the latest disease. Rough roads requiring constant working of pedals and controls, are responsible for this trouble, which can be very painful. Doctors with patients suffering from this ailment are recommending that heating of some soft material should be provided by motor manufacturers, particularly for racing cars.

In early Saxon marriages, the father of the bride delivered one of her shoes to the bridegroom who touched her head with it as a symbol of his authority.

Silver fox farming is being introduced into Norway.

In Baltimore, Ohio, there is a monument to Adam.

Crickets hear with their elbows.

Campers carry Minard's.

Stunts Planned For This Year

One Man Plans To Walk Across English Channel

It looks as if 1930 is going to distinguish itself as a year of amazing stunts.

Herewith are just a few of the things that cause men and women are planning to do during the summer.

Fly an engineless glider across the Irish Sea from Holyhead to Dublin. Walk across the English Channel on water boots.

Can Niagara in a miniature submarine.

Walk blindfold around the top of one of the tallest buildings in Britain.

A young airman, Mr. Alec B. Trafford, of Birmingham, is to attempt the crossing of the Atlantic on a glider across the Irish Sea. He has already had considerable experience in glider flying in Germany, and is now at work on the machine with which he intends to make his big attempt.

The man who is planning to cross the channel on water boots is Mr. J. Hazzard, who has invented an ingenious device consisting of a pair of ordinary shoe attached to the tops of two bright bags, which he intends will hold him aloft.

Budget Was Passed By House Of Commons With Majority of Twenty-eight

Ottawa, Ont.—The final budget of the 18th Parliament of Canada passed the House of Commons by a majority of 28 votes. Two members of the Conservative Party and one member of the U.P.E.A. group voted with the government.

Supporters of the government lined up behind the bill, but proposals put forward by Hon. C. A. Dunsmuir, Minister of Finance, May 1st, were voted down:

For the budget, 114.

Against the budget, 86.

Opposed to the budget were the members of the Progressive party with the exception of Finlay Macdonald, member for Cape Breton, South, and T. E. Simpson, member for West Algoma. Both of these Conservative supporters of the budget insisted that the bill was a measure in which the iron and steel industry is prominent. They had previously announced that they favored those provisions of the budget which they considered addressed to their constituencies, and consequently supported the government.

L. W. Johnstone, Conservative member for Cape Breton, North-West, however, voted against the bill, but favored provisions of the budget which he considered advantageous to the iron and steel industry. Being paired, however, he did not vote. L. H. Jellie, U.P.E.A. member for lethbridge, also voted against the budget.

Crowded galleries looked down on the stirring scenes which featured the final day of budget debate. Shortly after six o'clock the house had definitively voted in favor of the principle of the budget which was offered by the Progressive group and the Conservative opposition respectively.

The bill was amendment sponsored by W. F. Chamber, member for East Mountain, Sask., was showered upon by a vote of 177 to 19. Its entire support came from the Progressive, U.P.E.A., and Labor groups in the house.

The Conservative amendment which was moved by Hon. R. H. Bennett, Opposition leader, met with a similar fate by a majority of 60 votes. It is this reason that the division stood: For the amendment, 64; against, 124.

May Increase Salaries

Postmaster-General Will Try To Secure Higher Pay For Postal Workers

Ottawa, Ont.—Further attempts will be made to find a way to increase salaries of postal workers. Hon. Frank Veniot, postmaster-general, promised officers of the United Postal Employees of Canada after a conference extending over three days. Veniot pointed out that the proposal, which was being paid to aeromarines at the research department at Ottawa.

Measure Has Been Referred To House Of Commons

Ottawa, Ont.—A measure respecting employees of Canadian workmen on Dominion Government contracts was referred in the House of Commons to the committee on industrial and international relations.

On the motion of the bill, Dr. J. E. Gurnett, (Liberal, St. Ann.), informed the House that the measure was of serious interest to labor, especially in the City of Montreal. Veniot said that the proposal, which was to provide that there should be no age limit in respect to Canadian workmen seeking employment on government contracts,

had been referred to the committee on industrial and international relations.

Indian Flier Reaches England

England, England.—The Parsee Indian flier, R. D. Tata, arrived by aeroplane alone from India, after a nonstop flight of 12 hours, on May 13.

The Storting, or legislature, held an extraordinary meeting at which Prime Minister Hauge voted a vote of praise to the great explorer and humanitarian. The Storting's offer to pay the explorer's funeral costs was accepted by the Nansen family.

Early Wheat In Alberta

Edmonton, Alberta.—Many of the wheat fields in southern and central Alberta are standing with grain of excellent color to the height of two and three inches. According to the monthly crop report of the Journal, nearly 50 per cent of the wheat is showing green and all is germinating evenly.

Plans Are Questioned

Ottawa, Ont.—Proposed construction of a cold storage plant and warehouse at Vancouver by Senator Harry C. Stevenson is the subject of a series of questions placed on the order paper of the House of Commons by Hon. H. H. Stevens (Cons., Vancouver Centre).

Naval Parley Was Costly

London, England.—Cost of the London naval conference to the British public funds was almost a thousand dollars a day. Figures published show that the cost of the British Columbia postmasters invited to join the other provinces, W. A. Wylie, of Kamloops, was appointed temporary chairman of the provincial branch.

Postmasters Organize

Kamloops, B.C.—Dominion-wide organization of postmasters was completed here upon the conviction of British Columbia postmasters called to join the other provinces. W. A. Wylie, of Kamloops, was appointed temporary chairman of the provincial branch.

Quebec Trip To Canada

Quebec, Quebec.—British Minister of Air, owing to press of governmental business at home, will be unable to come to Canada on the British airship R-100, on its forthcoming flight from England to Canada. Word to this effect was received here by Hon. Frank Carder, member of the legislative council.

W. N. U. 1888

Britain Has Refused Demands Of Arabs

Delegates From Palestine Tell Proposals Were Unacceptable

London, England.—The British colonial office issued a statement declaring that the demands of the Palestine delegation to London had best in London discussing the future of their fellow citizens, for constitutional changes were "wholly unacceptable."

At the same time the Arab delegation, which recently declared it had reached a deadlock in the negotiations, announced it would leave for Palestine on May 23.

The colonial office statement said the government had taken note of the Arab demands but had told the delegation its proposals could not be accepted "since they render it impossible for His Majesty's government to carry out their obligations under the mandate."

RECONSTRUCTION OF C.N.R. WILL BE POSTPONED

Ottawa, Ont.—Without a division with very little debate, the Senate gave its consent to each of the bills restoring the natural resources of Manitoba, Saskatchewan and Alberta to those provinces. They previously had been passed through the House of Commons as government measures.

Hon. N. A. Belcourt, acting government leader, in supporting the bills, said the provinces had been left with independence and fairly well equipped to manage their own affairs.

He said the government's desire to grant the provinces as wide power as possible and was impressed with the spirit that animated the proceedings leading to the agreement.

Hon. W. W. Willoughby, Conservative leader, said the natural resources had been an acute question in the west for years, and believed it had been settled satisfactorily.

He said the government's desire to grant the provinces as wide power as possible and was impressed with the spirit that animated the proceedings leading to the agreement.

Hon. A. B. Murray received the pastoral charge respecting natural resources question in the west. Withholding of the resources under the 1905 incorporations had been disastrous to the provinces, and the present settlement was a complete justice to the western people.

Fredrik H. Hahn,

then premier of the Northwest Territories. The provinces, he said, had been forced into direct taxation, and Saskatchewan almost entirely.

If the resources had been given to the province in 1905, the sale of land would have offset the present debt.

To Broadcast Story

Montreal.—The complete story of the approach of the R-100 to Canada shores, her passage overland to Montreal, her arrival in Canada, and her departure for Europe, will be broadcast by Radio-Canada.

The broadcast will be simultaneous

in 20 cities in Canada.

HER MAJESTY THE QUEEN AND HER GRANDDAUGHTER

Queen Mary and the members of the royal family have been once again brought strikingly into the spotlight of public esteem by the biography of her majesty by Charlotte Cavendish, recently published in London. Photographs above of her majesty and Princess Elizabeth, granddaughter of the Queen, are by Marcus Adams, of London, England, and are reproduced here through courtesy of Toronto members of the Photographers of America.

NEW HIGH COMMISSIONER

Hon. Vincent Massey, envoy to Washington, who has been nominated to succeed the late P. C. Larkin, is shown in London. He is a native of Canada and has been a lawyer, a legislator and a diplomat.

PAPERS RESUME ACTION OF SCOTLAND YARD

Protest Against Method Employed In Reference To Leakage Of News

London, England.—The Home Office has been asked to make an investigation into the leakage of news from government sources connected with the arrest of Gandhi in India, the Newspaper Owners' Association having raised the question.

The association has asked the secretary of state to take action and bring it to the attention of the Home Office.

Receipt of the first entry in the
world's grain exhibition and con-
ference to be held in Regina in
1932 has been credited to William
Hudson, of Bassano, Alberta, as
an exhibitor in the "Reward wheat
class." Mr. Hudson, who is been
exhibiting at the annual agri-
cultural fairs in the past three years,
came to Canada from the Old
Country in 1912.

An announcement was made by the
Canadian Pacific Railway Company that on and after Wednesday,
April 9, they will accept shipments
of freight cars for grain to be ex-
hibited in the north-west, via
Port McNeill, Ont., and their lake
and river connections, and via
Port McNeill pending the first
sailing. There will be five steamers
in the service between the head
of the Lakes during the coming
season.

While the Five Power Conference
is in session in London con-
sidering ways and means of pro-
moting world peace, active prepa-
ration is being made in Canada
for launching another war with
relentless fury. Millions of canna-
bis seeds have been sown in the
air which is timed to start in May. It
is the war on insect pests in the
Dominion of Canada which does
damage to trees, plants and crops
unless checked by Government entomologists.

One very specific thing the coming election has already accomplished is that it has piqued up the Canadianization of many Alberta residents who are taking out their naturalization papers in order that they may have the right to vote.

As far as Bow Valley is concerned the coming election looks as though it is going to be a tame affair, but there is yet time for it to develop into an exciting battle.

A French pavilion always listens to a saxophone solo before going into the ring. Yes, it makes lots of people fighting mad.

STRONGER TOUGHER SAFER

MORE
NON-SKID
LIFE

Firestone GUM-DIPPED TIRES

HERE'S good news for you ---
Firestone Tires are even safer, tougher, and stronger
than ever before! Greater non-skid life --- deeper,
quicker action tread --- more contact with the road---
more rubber between the piles. These new advantages
give you even more mileage and greater safety.

And only in Firestone Tires do you receive the
advantages of Gum-Dipping---the EXTRA process by which
every cord is saturated with rubber to eliminate
internal friction---the greatest enemy of the life.

Specify Firestone Gum-Dipped Tires on your new car
or make your present car a better one by equipping
with Firestones. See the Firestone Dealer today---
he serves you better and saves you money.

MOST MILES PER DOLLAR

W. E. Sambrooke, Bassano

PROMOTE YOUR OWN PROSPERITY

Every time a dollar, instead of a quarter is re-
turned to the business channels of Alberta by
the purchase of an article made on Alberta
soil, manufacturing is stimulated and greater
capital becomes available. These two factors
make more labor necessary in our factories.

75c of every \$1.00
*spent on imported
merchandise*
LEAVES ALBERTA

Albertans will find many, if not all of their
needs manufactured right here on Alberta soil,
indeed they will find them equal in price and
quality when compared with importations.
Insist on Made-in-Alberta Products, the direct
road to better business, busier factories, more
work and larger payrolls.

Local News

N. H. Nelson, rancher north of Gen Colony, made a business trip to Calgary on Wednesday.

Mr. and Mrs. H. D. Brown and Mr. and Mrs. J. H. Hyekshaw were down from Hugo last Sunday.

The Bassano Players went to Brooks on Wednesday and presented "Nothing But the Truth" to a fair-sized audience in that town.

J. M. Wheatley, of Chancellor, was appointed returning officer for Bow Valley constituency in the coming provincial election.

Next Saturday May 24th, is Victoria Day and a public holiday. All stores

banks, and the post office will be closed.

Mr. and Mrs. T. H. Hunter were in Bassano Saturday and Sunday. Mr. Hunter shipped a number of horses to Calgary and will run them in the races there.

Saturday, May 24th is the day of the big Highwood stampede. A big picnic will be held. Everybody will be free to turn out and attend the annual celebration in Hussar.

Ben A. G. Scott and W. E. Sambrooke attended the air show in Calgary last Saturday. They intended to enter their plane in the contests but were unable to complete repair in time for the show.

Ben S. Palmer returned a few days ago from Alberta. He has spent the past few weeks as representative of the Alberta Wheat Pool in connection with a revision of the grain act.

Friends of Sperry Fraser will be pleased to learn that in the University of Alberta examinations he obtained the highest marks in geology, commanding in the faculty of dentistry. He also won a prize of \$50 awarded by the Dental Association of Alberta.

Reduction in Prices of RED ROSE TEA

Effective Immediately

10c. per pound reduction on Green Label Black Tea.
5c. per pound reduction on All Other Grades.

Higher Markets for finest quality TEAS, which are scarce, preclude greater reduction.

All Grocers are authorized to sell their present stock at these reductions. We refund to the Grocer the drop in price. We bear the loss.

T. H. ESTABROOKS CO. LIMITED
WINNIPEG, MANITOBA

"Did you tell him?" asked Charnian breathlessly. "I did; but not till I'd asked if he was making a social call or one in the interest of his client. He grinned and said, 'You ought to be more careful about what you say to me; but I'm just dropping in to pass the time o' day with an old friend.' So I told him the whole story. Charnian, the young chink, I think, had been hysterical. There wasn't a shred of dignified lawyer left in him when I got through."

"But what's he going to do?" "It don't make a mite o' difference to me what he does, so long as he doesn't do it in my office," said Mrs. Davis; but I'm just dropping in to pass the time o' day with an old friend." "Do tell!" ejaculated Grandma. "Did she show you the picture?" "Yes, she was awful pretty; hats on her fifteen and color will it be?" Green doesn't go well with most of Emmy's things."

Charnian laughed. "It's possible, you know, to buy out other girls even when you're not married; but I'm not extravagant, or I don't know Gami," he said, confidently, that he thought when the deacon cooled off a little, and he could get the big expense of a law office paid off, he could get out of course. Just now Edger's eyes cleared through. He says Luelas's only women he ever proposed to that refused him, and claims that she let him on something scandalous.

"Then he can show me which is what he means," said the catalogue and not liable to be extravagant; but it does seem risky getting a hat clear from Chicago. It might get mashed in the mail, and then where's the use? Maybe that's Jimmy now. There's an auto stopping. If you call him in, dearie, so he can show me—"

"That you, Jim?" called Charnian, half rising as the front door opened. "Come in a moment. Grandma needs you."

Jim, who had eaten hastily to his heart's content, was on his way back to the bank, obeyed willingly enough. He had the bulky catalogue under his arm, and though he smiled at Grandma, his eyes were on the floor. "What's it at now if George K. Keene hadn't come along and turned us off in Wickenden?"

Wickenden laughed as she went toward the kitchen, glad there was enough excitement on hand to keep Grandma from asking too many questions about her ride with Jim; and they went on their way, their meal the lady quaffed merrily.

"Did you enjoy your ride? And are you getting my catalogue from Emmy?" "Oh, dear!" cried Charnian. "I left it in the car."

"It's no great matter," responded

"Gosh, buster!" objected Jim, "the book is three hundred and fifty pages thick! How I to find—"

"The hate begin on page fifteen," broke in Grandma. "They look real pretty in the pictures, but I've never seen a picture of a order hat, and except for making a few heads of comotion around town."

"Grandma," Charnian interrupted sternly. "I've got a notion that Jim is sick and tired of hearing about that book. Let me have a word with him, a right to advise a green hat if he wants to. The truth is, I liked it myself!"

"You did," agreed Grandma, astoundingly. "I bet you did. I had a first real laugh of the day—for him. For a moment his eyes met Charnian's with their old twinkle, then returned to the book, and he said advisedly:

"I think it must be this one. I remember it kind of hung down one side, and had a red rose on the other."

"Read what it says, sonny. I haven't got my glasses."

Jim obeyed, reading with mock

parts. You are happy again in five minutes.

Don't depend on cracked methods. Emmy best way yet evolved all the years of searching. That is Phillips' Milk of Magnesia. One spoonful neutralizes one ounce of acid. It is the right way; the quick, pleasant, and efficient way to kill the excess acids. Each bottle contains full directions—any druggist.

Sour Stomach

Just a teaspoon dose of Phillips' Milk of Magnesia in water that is an astringent, yet harmless, it has been the standard antacid for 50 years among physicians everywhere. One spoonful will neutralize one ounce of acid. It is the right way; the quick, pleasant, and efficient way to kill the excess acids. Each bottle contains full directions—any druggist.

THE MAIL, BASSANO, ALTA.

simply. "A" dressy model whip, soft, pinkish lines that you will simply adore. The term is two colors of dainty lace-pattered straw. Colors: black with a red rose; meadow pink with sand; gobelin blue with a red apple. Price only one-half price. Shipping weight two pounds. This sounds pretty swell, Grandma, doesn't it? Emmy was hovering between the black with the red rose, and the meadow pink with red apples or carrots. I gave her a rub of the blue, and ran, or she's still be asking my assistance. Now I must skip, or George K. will think I've been talking with my money."

Again she goes straight Charnian, but at the mention of interest, her face hardened, and she turned away.

A moment later the whir of an engine told her that Jim had gone and Grandma turned back to her eyes from the gaily colored paper.

She said, "I think it is that if that hat would be a little wide in the brim for Emmy; but you never can tell about a hat until you try it on. I think she'd like it, though it's a terrible risk, though we do say money unfound if not satisfactory." Still, they might make a fuss if she sent it back. Business men are hard-hearted to deal with—that is, some of 'em are—but business always said there were exceptions."

"I'd like to find one," said Charnian; but Grandma, still absorbed in Emmy's purchase, didn't notice the sudden titterings in the girl's voice.

CHAPTER XIV.

It was with a very genial glow of happiness that Charnian learned that the school board had given her "Distinguished Service Award" and she graduated from the State Normal School—year when it seemed best for her to stay with Grandma; but it became increasingly difficult to meet expenses and keep the old place up, so she realized that something must be done, and to get the school only a mile from her own door was a vast relief.

(To Be Continued.)

CRYING BABIES ARE SICKLY BABIES

The well child does not cry—it is only the sickly baby who cries. The crying baby is unhappy, the happy baby's cry of distress is the sign of telling his mother or nurse that he is only a few days old, and is not yet ready to look for the trouble.

Baby's Own Tablets are a safe and effective remedy for childhood ailments. They are a mild but thorough cure for the common cold, constipation and indigestion, break风寒, and are especially useful in the treatment of colic and teething.

McCormick-Deering Tractors

Make Power Farming Profitable

Power farming has become recognized as a means of increasing farm returns through lower operating costs. The new models and heights of their tractors which permit more days and longer days in the field, when necessary—tractors which are dependable under adverse weather conditions and supply economical power.

McCormick-Deering tractors are the result of over twenty-five years of successful tractor building experience. They are practical power units for everyday farm conditions. They provide the maximum amount of service and economy of operation.

The new McCormick-Deering 15-30 tractor has greater reserve power and increased economy of operation. New features which have been added. This powerful unit, together with the complete line of McCormick-Deering power-operated machinery, places the western farmer in a position to compete with any grain growing section in the world. The increased power of this new tractor enables you to plow, till, drill, summer-fallow, and harvest faster, lighter, and at less cost than ever before.

The owner of this tractor has a ready source of power on the belt or power take-off.

Irrigation Water Is Ready For Gardens

The irrigation water is now running in our irrigation system. The trees on the streets are being watered, and residents who have gardens, trees, or lawns may also get the water. Application for water must be made at the Town Hall. An advertisement advising the location of the fact and also giving the rates charged appears in this issue of the paper.

Wedding

SIMPSON—BAILEY

A pretty wedding was witnessed at St. Albans Church, Brooks, at 2:00 p.m. Monday, May 19, when two well known and popular Bassano young people, Miss Elizabeth Myrtle Bailey and Mr. John Ward Simpson were united in marriage, Canon B. Harrison officiated.

The bride, who was given in marriage by her father, was gowned in rose France georgette with hat of pink straw. She wore a corsage of Quince blossoms. The homely Miss Isabel Baile, wore a very becoming gown of blushing pink silk crepe and carried a bouquet of sweet peas.

The groom was assisted by his brother, Arthur Simpson. The bridal party left the church to the strains of old time March played by Mrs. Frank Berry.

After the ceremony a dainty buffet luncheon was served at the home of Mr. and Mrs. T. E. Baile.

The happy young couple left Brooks late in the afternoon. They will remain with Bassano and journey on to Calgary. The honeymoon is to be spent in the vicinity of Banff and Lake Louise.

C. P. R. CROP REPORT

WINNIPEG, May 20. While approximately 75 per cent of wheat is above ground in the three prairie provinces, the last week's growth has been retarded somewhat by cool weather, says the weekly report from the Canadian Pacific Railway Department of Agriculture and meteorology.

This week's according to the department, is not adverse as plants are meantime developing root and stooling out well; germination is uniform and fields on the average have excellent color.

When seeding in Manitoba is practically completed and stands at a nicely-eight per cent estimate.

Saskatchewan and Alberta register 27 per cent.

Coarse grain seeding made practically no headway in Manitoba during the week, but in the other two provinces much has been done. Oats stand at sixty per cent, and barley at fifty-five per cent.

Favorable moisture conditions have advanced the germination of winter wheat and barley, and the grain is in prolific growth, with early sown wheat in various parts badly infested and in oil cases abandoned.

Freezing registered as much as 14 to 15 degrees in parts of Manitoba and Saskatchewan on the 15 and 16 of May, have accompanied the cloudy and very cool weather. Practically all the grain in the two provinces of Manitoba because of heavy rains and showers were reported in some parts of Saskatchewan and Alberta.

Plans for the provincial election which is to be held Thursday, June 16 are now under way. J. M. Wheately, of Chancery, has been appointed returning officer for Bow Valley, and he is now proceeding with the work of appointing the deputy returning officers.

The proclamations have been printed and will be distributed and posted up at all the polling places.

Nomination day is Monday, June 9, and nominations will be received at the Town Hall, Bassano.

There are thirty-two polls in Bow Valley electoral division. A considerable number of changes have been made in the polls since the last provincial election.

Plans for the provincial election which is to be held Thursday, June 16 are now under way. J. M. Wheately, of Chancery, has been appointed returning officer for Bow Valley, and he is now proceeding with the work of appointing the deputy returning officers.

The proclamations have been printed and will be distributed and posted up at all the polling places.

Nomination day is Monday, June 9, and nominations will be received at the Town Hall, Bassano.
